Impression® 4120 CD Printer Autoloader

Shown with Rimage® Thermal Printer

US Patents 5,975,839; 6,024,532

Introducing the Ashby Impression® 4100 Automatic CD Printer. Now the same patented Gravity Feed Design that has made Ashby Floppy Disk Duplicators the reliable production solution since 1983, makes the Impression® 4120 the ultimate

choice for just-in-time CD or CD-R printing. The simple yet rugged all aluminum construction and bulletproof pneumatic operation is intended for the long, long haul. The Model 4120 works as a substitute operator for the Rimage® family of direct to disc printers. If you already use a Rimage® printer, just imagine never having to load another disc by hand! The Model 4120 requires no software or hardware interface with your PC or printer. You keep on designing and printing with your favorite applications the way you always have: the Model 4100 just does all the hard work.

Features:

- Unattended disc printing
- All aluminum construction
- Super fast load/unload cycle
- Non-robotic Gravity Feed Design
- Smooth, industrial quality pneumatic components
- Huge 200 disk hopper capacity
- Unique, patented disc singulation
- First-In, First-Out (FIFO) hopper system
- No regular maintenance required

- Simple to learn and use
- One-button start/continue
- Requires no special software
- Print from your existing applications
- Requires no interface to printer
- Easy access to printer and ribbon
- Compatible with Rimage® Thermal Printers*

*requires specific printer model restrictions - contact Ashby for details.

Configurations:

Model
Impression® Model 4120

Printers Supported
Rimage® Thermal

Max Throughput
260 dph
