

# PRINT & BURN

## Make Discs on your Desktop with the GX-1 Print & Burn Station

Easily design labels, record, and print directly on the disc! With its 50-disc input capacity, high-speed CD/DVD combo drive, integrated inkjet printer, and small desktop footprint, the GX-1 is perfect for businesses and organizations requiring short runs of professionally-finished discs. Anyone can benefit from its innovative design and low price point. Set up multiple jobs with any quantity, walk away, and leave the GX-1 to do the rest. Burn virtually any DVD or CD format, including dual layer! Controlled from your PC or Mac over a single USB 2.0 cable, the GX-1 is an all-in-one production package.

40 MB hard drive space

For years, Microboards has provided the fastest, highest-quality duplicators in the world. Based on our popular Print Factory design, the PF-2 achieves the **highest throughput** without sacrificing quality because it boasts the **highest resolution** of any CD/DVD printer on the market. And you can do it for a **lower cost per disc** than any other printer! Additional features include a 100-disc capacity and spindled output for perfectly-handled discs every time!

### Create Professional Discs!

The PF-2 Disc Printer allows for the easy creation of professional, finished discs. Design your label using the included software, or import your own original artwork from a program such as Adobe Photoshop. Set the desired number of copies, walk away, and let the 100-disc input and reliable robotics do the rest!

#### Highlights:

- 100-disc input/output
- High resolution - up to 4800 x 1200 dpi
- Prints in less than 15 seconds (1200 dpi image with 20% coverage)
- Cartridges yield hundreds of discs
- Fully integrated, automated printer
- USB or parallel
- Software included
